KHIRAN 24 AED

apple elderflower tea • cranberry juice • elderflower syrup

DROP IT! Re-think Plastic.

„Plastic pollution plays a vital role in climate change. **DROP IT** #rethinkplastic focuses on the adoption of good practices to achieve the United Nations Sustainable Development Goals and works towards contributing to regulations to reduce the use of plastic bottles and bags and as a result, reduce improper disposal and waste generation.“

H.E. Dr. Thani bin Ahmed Al Zeyoudi

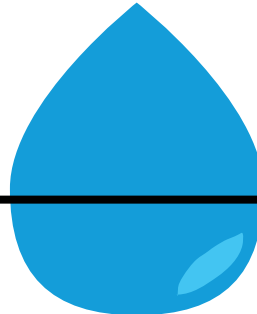

Minister of Climate Change and Environment for the United Arab Emirates

You can either order a glass or a bottle of water – **free of charge of course.**

WHY TO PREFER TAP WATER?

Type text here

1. Filtered water tastes better than bottled water.
2. UAE bottled water is mostly tap water.
3. There's more risk of contamination through handling plastic bottles than through water supply.
4. Bottled water kept under the heat and sun, leeches toxins into the water.
5. Prices for bottled water is up to 1.000 times the cost of tap water.
6. The UAE water consumption per capita is 83 times more than the world average.
